

2008 Pre-Season Spring Specials!

Cool Savings to keep you operating efficiently this Spring and Summer

Our Pro-Active Supreme \$89.00 Preventative Maintenance

Check thermostat operation and calibration, check filter, check blower speed, balance and alignment, record temperatures of supply and return air near the evaporator, adjust any accessible dampers to cooling season, apply gauges to your condensing unit/heat pump, record system pressures, check and tighten electrical connections, check contactor condition, flush condenser coil if needed, check compressor and fan amp draws and voltages, check condensate drainage, and seal any minor air leaks in supply plenum and blower compartment.

Only \$69.00!

Have your filter size when you call to schedule, and get any size 1" filter FREE!

We have the Latest Earth Friendly Systems that can Dramatically Reduce your Home Operating Costs!
